ABSTRACT:
...medical insurance services, has launched the project concerning use of
magnetic cards instead of conventional insurance policies . Use of cards
in combination with the central processing computer system will allow the
Moscow city health care administration to receive complete data on use of
medical services and consumption of drugs. Concurrently with implementation
of the new system a database will be formed containing information on
owners of insurance cards . Near 1,000 terminals are supposed to be
installed in drugstores. Analysis of the database could allow to improve...
